

An organic concentrate of the most researched seaweed in the world.

HydraSea 48™ is a 100% water soluble organic seaweed extract that is highly concentrated, delivering nearly 3 times the organic bioactives and minerals as the main competitive products in the market.

A higher concentration of minerals and bioactives means lower application rates can be used.

Promotes yield and quality increases.

Reduces susceptibility of frost damage in target plant.

Formulated for leaf absorption.

Will not block nozzles.

Directions for use

Application: Boom Spray, Fertigation or Aerial.

Typical application rate 250-500 mL/Ha.

Apply with enough water to thoroughly cover foliage, up to 25 L/Ha by air or 1,000 L/Ha by ground equipment.

Minimum dilution 1L *HydraSea 48* in 25L water.

Consult your BioAg Area Manager or Distributor for advice specific to your own growing scenario.

Standard mixing & spraying instructions:

1. Agitate contents well before use.
2. Jar test if mixing with other products. Check for physical changes.
3. Half fill spray tank with water.
4. Add recommended amount of HydraSea 48.
5. Continue to add water under agitation to bring volume up to full.
6. Continue agitating until completely mixed.
7. Rinse sprayer after use.

NOTE: The above suggested rates should be used as a guide only. BioAg does not warrant that these rates will necessarily produce the optimal or expected outcome. Each farmer's climatic conditions, before, during and after application, water quality, soil and plant types, application processes and practices may differ and require adjustments to the application rates to ensure optimum results.

Keep out of reach of children.
May cause irritation to eyes, skin and throat.

Compatibility

Compatible with a wide range of common fertilisers and chemicals. Recommend not to mix with calcium products, strong acidic, and strong oxidising products.

Storage and handling:

1. Store all containers out of sunlight and in original containers.
2. Store away from children, pets, animals, food and feed.

Conditions of sale:

1. The product has a limited shelf life and must be stored in accordance with the storage and handling directions to preserve shelf life. Failure to store correctly or use after the expiry of shelf life is a breach of the conditions of sale. As BioAg cannot exercise control over storage, handling, and the exercise of personal judgment, skill and expertise in the mixing, application or use, or weather, or animal condition before, during or after application, all of which may affect the performance of the product, BioAg, to the maximum extent permitted by law, will not accept any liability for any failure in performance of the product, or any losses or damages whatsoever.

2. Except as expressly provided in these Conditions of Sale, no warranty, condition, undertaking or term, express or implied, statutory or otherwise, as to the quality or fitness for purpose of the goods is given or assumed by BioAg and all such conditions, warranties and liabilities (including liability as to negligence) express or implied relating to the goods are hereby excluded to the extent permitted by law. To the extent that liability can be shown (under law) it is limited to the replacement of goods or their equivalent monetary value only.
